A Strategic Approach to Personal Philanthropy
OUR MISSION
The Community Foundation of Greater Greensboro inspires giving, maximizes opportunities, and strengthens communities for present and future generations.

Let’s create lasting impact in our community.
Impulse Driven

While most people take the time to plan their annual budgets and consider how their assets will be divided up at death, very few sit down to consider how they want to give money away, whether during life or after.

We want to change that. The Community Foundation of Greater Greensboro’s mission is to inspire giving, maximize opportunities, and strengthen communities for present and future generations. We exist, literally, to work with donors from across this great city to make Greensboro an even better place.

We think everyone – regardless of income, regardless of net worth – should have a personal giving plan, and we have created this planner to help you start your own journey.

To get you started, using the chart below, consider the organizations that received your top five largest cumulative gifts in the last year. You can include the total dollar amounts or just rank them 1 to 5, largest to smallest. Next, check the boxes that correspond to the reasons why the donations were made. If there is more than one reason, check all that apply. If you volunteered your time, indicate that as well.

Our lives and experiences shape our personal values, revealing what is most important to us. Values can be rooted in faith, tradition, career, or personal interests. This exercise will help you identify the most important values to consider as you give. We’ve listed a few to get you started. Feel free to add any not listed here. Choose your top 10, then narrow your list to five, and finally select your top three.

CREATE YOUR PLAN

What impact do you want to have on the issues you are most passionate about? Consider these three primary strategies for creating change.

Relief
Provides direct services to those requiring immediate help. Give someone who is hungry a fish.

Prevention
Identifies causes and proactively offers services and support to avoid the need for services in the future. Teaches someone who is hungry how to fish.

Reform
Efforts to advocate for improvements in current systems, laws, and policies. Ensures that all people have access to bait, tackle, and an unpolluted lake so they can fish.

Which strategy resonates with you? Which strategy has been the focus of your past philanthropy? Does this exercise make you consider altering your future giving?

Once you understand what drives your philanthropy, the next step is developing a plan that ensures your charitable giving is in line with your values, interests, and desire for impact. After completing this exercise, many people find they haven't been as focused as they would like - targeting their giving to the things they care about the most.
